SUMMARY

Full-stack developer (3.5 years) on the MERN stack. I've built two products from scratch and enjoy the messy early stage.

SKILLS

Languages: JavaScript, TypeScript
Frameworks: React, Node.js, Express
Databases: MongoDB
Cloud & Tools: Tailwind, Vercel, Git

EXPERIENCE

Full-Stack Developer — Remote (US startup) *(2022 – Present)*

- Own features across a MERN product: React UI, Node APIs, MongoDB.
- Built a real-time notifications system with WebSockets.
- Set up the staging pipeline and wrote the first integration tests.

Frontend Developer — Shopline *(2021 – 2022)*

- Built React components and managed app state with Redux.

PROJECTS

Habitly — a habit-tracking PWA — React + Node.
