Mohammed Farouk

Full-Stack Engineer · Sharjah · mohammed.farouk@email.com · +971 55 625 2250

OBJECTIVE

Full-stack engineer (4 years) building web apps with React and Node, with some serverless AWS experience. I like turning vague requests into shippable features.

SKILLS

Languages: TypeScript, JavaScript
Frameworks: React, Node.js, Express
Databases: PostgreSQL
Cloud & Tools: AWS Lambda, Docker, Git

EXPERIENCE

Full-Stack Engineer — Mrsool *(2022 – Present)*

- Build React/Node features for a delivery platform; some functions on AWS Lambda.
- Cut a slow checkout flow from 6s to 2s by reworking API calls.
- Added structured logging that halved time-to-diagnose for production issues.

Web Developer — Local agency *(2020 – 2022)*

- Built WordPress sites and custom React widgets for SME clients.

EDUCATION

B.Sc Computer Science, American University of Sharjah — 2020
