SUMMARY

Full-stack developer (3 years) who grew up in an early-stage startup — React and Node end to end, and whatever else the week needs.

SKILLS

Languages: JavaScript, SQL
Frameworks: React, Node.js, Express
Databases: PostgreSQL
Cloud & Tools: Git, Figma, Heroku

EXPERIENCE

Full-Stack Developer — Twiga (startup) *(2023 – Present)*

- Ship React/Node features end to end on a PostgreSQL backend.
- Built an inventory module used daily by 200+ field agents.
- Added offline support so the app works on poor connections.

Intern to Junior Developer — Andela *(2021 – 2023)*

- Started in React UI work, grew into Node APIs and database design.

EDUCATION

BSc Computer Science, University of Nairobi — 2021
