Full-Stack Developer · Dubai · aisha.khan@email.com · +971 55 415 9980

SUMMARY

Full-stack developer (4.5 years) focused on clean APIs and reliable data. React and Node by day, strong on PostgreSQL and testing.

SKILLS

Languages: JavaScript, TypeScript, SQL
Frameworks: React, Node.js, Express
Databases: PostgreSQL
Cloud & Tools: GitHub Actions, Jest, Docker

EXPERIENCE

Full-Stack Developer — Tabby *(2021 – Present)*

- Built React/TypeScript UI and Node REST APIs for a buy-now-pay-later product.
- Raised automated test coverage to 80% and added contract tests for partner APIs.
- Designed PostgreSQL schemas for orders and repayments; handled idempotency on payment webhooks.

Developer — Freelance *(2020 – 2021)*

- Delivered five client web apps in React/Node, end to end.

PROJECTS

Splitr — an expense-splitting web app — React + Node + Postgres.

EDUCATION

BS Software Engineering, NUST Islamabad — 2020
